

Live Pay-Per-View Webcasts and Streaming Services

Videographers Wanted! If you are ready to make some serious money, Act Now!

TodoCast gives you everything you need to stream any event from anywhere and charge whatever you wish.

What is TodoCast?

TodoCast is a pay-per-view streaming service over satellite. You film it, you promote it and TodoCast does the rest. Videographers can broadcast live events from any location and earn revenue off every single viewer.

The TodoCast kit includes a satellite antenna (that points itself at the push of a button), all electronics including an encoder and even a professional camera. The antenna fits on any SUV and the equipment comes in a portable case.

What is IPLIVE.tv?

IPLIVE.tv is the premiere website that provides an online environment for visitors to search and view live events.

IPLIVE.tv Delivers an Interactive, Broadcast-Quality Experience Content is gathered from

videographers all over the world who are registered with IPLIVE.tv. They film the video and IPLIVE.tv streams the live content through a powerful Content Distribution Network (CDN).

Events are categorized by genre's to provide a rich viewing experience that appeals to broad reaching audiences. Searchable categories such as Sports, Free, Pay-Per-View, Breaking News, etc. allow viewers to quickly and easily watch their viewing preferences.
